MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: U.S. Army Garrison Alaska Boating/Off-Road Vehicle (ORV) Safety
Offenses and Barment Penalties Policy (USAG-AK-26)

1. References:

a. USARAK Regulation 190-13, Military Police, Enforcement of Hunting and Fishing
on Army Lands in Alaska, 31 March 1995

b. Alaska Statute, Title 05, Amusements and Sports, Chapter 05.25., Watercraft,
Article 01, Safety Requirements

2. The purpose of this policy is to establish uniform boating/ORV privilege suspension procedures for U.S. Army Alaska installations and to establish due process procedures for individuals who are the subject of such action. Use of boats and ORVs on U.S. Army Alaska lands is a privilege granted by the installation commander responsible for the safety, protection and security of personnel and property under their command. Likewise, it is a privilege to rent recreational equipment from the Army Morale, Welfare and Recreation (MWR). Individuals who accept these privileges are expected to obey boating/ORV safety laws and regulations and policies.

3. For those individuals who fail to adhere to the laws, regulations and policies set forth by the commander, the attached enclosure shall serve as the template for the uniform imposition of suspension for boating/ORV safety violations and involvement in incidents or conduct which warrant recreational privilege suspension.

4. Any individual cited for having committed such a violation shall be served notice of the commander's intent to suspend their recreational access for one year from date of issuance and given an opportunity to respond.

5. The point of contact for this policy letter is the USAG Alaska Garrison Administrative Officer at 384-2175.
